When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO STANDARD.

London, 7th—The latest election returns show that the Conservative majority is gradually being reduced.

The *Daily News* thinks that the result will be almost a dead-heat, in which case Lord Salisbury will be forced to resign and Gladstone will return to power.

The struggle is assuming a marked personal character, and accusations are levied against the leading politicians on both sides, to damage them in the eyes of the electors.

Pittsburg, 7th—A bloody fight has taken place between the police and the men of Carnegie's foundry. Twenty killed and forty wounded; it is believed that there were many more of both, as the workmen carried away theirs. The fight arose through the police interfering to prevent the destruction of the foundry contemplated by the workmen.

Berlin, 7th—Bismarck continues his vehement attacks on Caprivi, making him personally responsible for the complications that may ensue, and the state of prostration into which Germany has fallen.

General Caprivi defends himself vigorously in the *North German Zeitung* against the attacks of the ex-Chancellor.

Paris, 7th—The French artists are making great efforts to ensure the success of the French Fine Arts Exhibition at Chicago. The well-known painters Carolus, Duran, Stevens, Cazin, Boldini, Duez, Bernard and others have offered to send pictures.

Efforts are being made to induce the Government to send some of the best pictures of the French School that the State possesses.

(To the "Prensa".)

London, 6th.—The Radicals are not making so much headway as supposed. They have lost and won an equal number of seats. Stanley the explorer has been defeated at Greenock. The Conservatives are every day more confident of victory.

A grandson of the Liberator, the great Dan O'Connell, is opposing the Radical candidate in Kent. He says Home Rule would be fatal for Ireland. At Wigan Balfour warned the electors against Gladstone's working men candidates. In his last speech Gladstone declared that Scotland could have Home Rule for the asking.

At an election disturbance at Gravesend, the police turned the water hose on the mob and dispersed them.

The remains of Mr. Robson, Premier in British Colombia, were interred yesterday.

The Clyde regatta has been postponed, owing to the bad weather.

New York, 6th.—The strikers at Penkerton (Australia) are firing dynamite bombs on the shipping in the river and the police on board it. The Governor has been called on to send troops. Many people have been killed.

Foreign stocks in London very heavy. Bar silver 40⅛.

A Free Silver Coinage Bill was laid before the Senate at Washington yesterday.

Simla, 6th.—The revolt continues all along the Afghan frontier.

Paris, 6th.—Government is inclined to leave the Exhibition in 1900 entirely to private enterprise and take no part in it.

The Customs Commissioners have decided to leave the import duty on petroleum as it is until the 31st. March 1893, and a bill to reduce it by 15 or 18 centimes will be laid before the Chambers.

Pittsburg, 6th.—There was a pitched battle this morning between 300 policemen and the strikers at Carngie's works. There were killed and wounded on both sides.

Berlin 6th.—The *Nachrichten* of Hamburg, Bismark's organ, says that the Prince has an easy conscience, as his recent declarations, though they may affect the Emperor, were made for the welfare of Germany.

Paris, 6th.—It is said that England, Spain and Italy have agreed to divide the Empire of Morocco between them.

St. Petershuag, 6th.—The authorities in the Caucasus are quite unable to check the cholera. At Baku there are only four doctors (volunteers) in the Cholera Hospital. Sixty fresh cases and 91 deaths occurred in Baku on the 2nd. inst.

(To the "Nacion.")

London, 6th—According to data already known, the Liberals get nine seats in 96 districts. The Liberals express their complete confidence in victory. Serious disturbances have occurred in Cork

Paris, 6th—The *Temps*, commenting on the elections in England, says that the Conservative majority will be so small that the new parliament will have to be dissolved.

Rome, 6th—The recent outrages on Italians in Brazil have caused a great sensation throughout Italy. The papers call on the Government for immediate and energetic action. Government has ordered two cruisers to prepare to sail for Brazil.

The Brazilian Minister here has promised the fullest satisfaction and the punishment of the guilty parties. It is probable the difficulty will be arranged in a friendly manner.

Paris, 6th The Committee of the Chamber of Deputies has approved the project for an International Exhibition to be held in 1900.

Berlin, 6th—The *Nachbuchlen* of Hamburg states that 1900 will witness two rural exhibitions, that of Berlin, and that of Paris. The same paper adds that the French knew very well that it was the intention of Germany to hold an International Exhibition in 1900, a circumstance that shews the hostile feeling of France towards Germany. The Exhibition Committee in Germany has decided that the Berlin Exhibition shall take place in 1898, in order not to clash with the Paris Exhibition.

Madrid, 6th—The Morocco question is shewing signs of complications, owing to the anarchical condition of Morocco. The Aughera tribes are in open revolt against the authorities. England appears to be engaged in secret negotiations.

Copenhagen, 6th—Diplomatic relations with Germany are strained. This coldness arises from certain toasts given during the recent festivities.

Paris, 6th—The frequent occurrence of cases of cholera-nostra is beginning to cause alarm here. The number of people leaving Paris is extraordinary.

London, 6th—Telegrams from Venezuela report a sanguinary engagement between the revolutionists and the Government troops, the latter being defeated. Some telegrams say that the revolutionists were defeated. The revolutionary forces under General Crespo have laid siege to Caracas.

Vienna, 6th—Great alarm prevails owing to the advices from Russia reporting the rapid spread of cholera. Great precautions are now being taken on the frontier. The virulence of the plague is extraordinary.

Rome, 6th—Government has decided to impose quarantine on vessels from the Black Sea.

THE RIO GRANDE REVOLUTION.

Artigas, 6th—Telegrams just received from Rio Grande report the surrender of General Tavares and his forces in Bagé. This event had been hourly expected. This settles the whole question; the Republicans have won the day, and peace will now reign supreme. The only sanguinary feature in the entire struggle was the bombardment of Porto Alegre by the war vessel Marago.

LESSONS IN FINANCE.

THE ARGENTINE PROVINCES.

Rioja.

Estimates of revenue and expenditure were:—

	1884	1890
	$ currency	$ currency
Revenue.....	105,000	432,000
Expenditure ..	151,000	1,380,000

Expenditure has grown 9-fold in six years, and is now three times the amount of revenue. The estimates of the latter in 1890 (excluding bank-profits) were:—

	$ currency
Lands.....	100,000
Property-tax.....	80,000
National subsidy.....	80,000
Sundries.....	172,000
Total.....	432,000

It is more than doubtful that public lands produced any such sum as estimated above. The esimates for expenditure were (supposing the service of debt) as follows:—

	$ currency
Int. on debt.....	900,000
Schools.....	150,000
Police.	110,000
Sundries..... ...	220,000
Total	1,380,000

By suspending the service of debt the expenditure would be reduced to 480,000$ or 48,000$ over revenue. The debt was composed as follows:—

	£ sterling	$ currency
Foreign loan.....	800,000 =	12,100,000
Bank overdrafts..		2,265,000
Sundries		350,000
Total		14,715,000

This is equal to 184$ per inhabitant, and although some other provinces have a higher ratio of debt per head the burthen is probably heavier in Rioja, since the mere service of debt would require a sum more than double the total revenue.

Catamarca.

Estimates of revenue and expenditure shewed thus:—

	1884	1890
	$ currency	$ currency
Revenue.....	94,000	405,000
Expenditure.....	106,000	970,000

The revenue of 1890 was made up thus:—

	$ currency
Property-tax.....	130,000
Licenses.....	90,000
Sundries.....	185,000
Total.....	405,000

The Government also counted on 420,000$ from bank-profits and coupons, which cannot seriously be admitted. The expenditure was (supposing service of debt) as follows:—

	$ currency
Int. on debt	540,000
Police.....	120,000
Schools.....	40,000
Sundries.....	270,000
Total	970,000

Even after suspending the service of debt there would still be a deficit of 25,000$. Debt consists of a Paris loan for £600,000, say 9,100,000$ currency or 83$ per inhabitant. As the annual charge for debt largely exceeds the revenue of the province the position is extremely painful, for the bondholders.

Jujuy.

This is the only province that has no public debt worth mentioning, its poverty proving its best protection. Its finances, nevertheless, are somewhat out-of-joint. Estimates of revenue and expenditure shewed :—

	1884	1890
	$ currency	$ currency
Revenue.....	66,000	126,000
Expenditure..	66,000	200,000

The revenue in 1890 was as follows:—

	$ currency
Lands	58,000
Property-tax.....	26,000
Sundries.....	42,000
Total.....	126,000

Expenditure shewed as follows :—

	$ currency
Schools.....	74,000
Police	34,000
Debt.....	10,000
Sundries.....	82,000
Total.....	200,000

There seems to be a small local debt of $150,000 currency, equal to $3 per inhabitant.

Salta.

Returns of revenue and expenditure were :—

	1884	1890
	$ currency	$ currency
Revenue	202,000	327,000
Expenditure.	204,000	1.390,000

The items of revenue in 1890 were :—

	$ currency
Land-tax.....	110,000
Licenses.....	70,000
Sundries.....	147,000
Total	327,000

The service of debt would alone require a sum three times as great as the total revenue, the expenditure shewing as follows :—

	$ currency
Int. on debt.....	970,000
Police	175,000
Schools	52,000
Sundries.....	193,000
Total.....	1,390,000

By suspending the debt the expenditure would be reduced to $420,000, leaving a deficit of $93,000. The debt is composed as follows :—

	£ stg.	$ currency
Foreign loan..	1,000,000 =	15,,100,000
Bank overdraft		1,250,000
Total.....		16,350,000

This is equal to $110 per inhabitant, not at all so high a ratio as in some other provinces, but the burthen of interest, as shewn above, is beyond all human possibility.

Tucuman.

Estimates of revenue and expenditure were :—

	1884	1890
	$ currency	$ currency
Revenue.....	392,000	950,000
Expenditure.....	432,000	1,560,000

The revenue of 1890 shewed as follows :—

	$ currency
National subsidy.....	240,000
Property-tax.....	310,000
Licenses and stamps	235,000
Sundries.....	165,000
Total	950,000

Expenditure (supposing the service of debt) was as follows :

	$ currency
Int. on debt.....	550,000
Police	280,000
Schools	140,000
Buildings	270,000
Sundries	320,000
Total.....	1,560,000

By suppressing the service of debt the expenditure would be reduced to 1,010,000$, leaving still a deficit of 60,000$. The debt consists of a London loan of £600,000 sterling to found the State-bank of Tucuman : this is equivalent to 9 100,000$ currency or 45 per head. The service of the debt, as shewn above, is out of the question.

Santiago del Estero.

Estimates of revenue and expenditure were as follows :—

	1884	1890
	$ currency	$ currency
Revenue.....	110,000	670,000
Expenditure.....	144,000	1,610,000

Revenue in 1890 was as follows :—

	$ currency
Property-tax.....	144,000
National subsidy	96,000
Licences	120,000
Sundries.....	310,000
Total.....	670,000

This was exclusive of the familiar "bank-profits" which were counted to produce 600,000$. The Governor, nevertheless, announced a deficit of 350,000$, the Government owing the bank 640,000$.

The expenditure, if the debt were properly attended to would have been :—

	$ currency
Int. on debt.....	950,000
Schools.	140,000
Police	120,000
Pub. works.....	140,000
Sundries.....	260,000
Total.....	1,610,000

The deficit would have been 940,000$ but for the suspension of debt, which brings revenue and expenditure even. Debt consists of a London loan for £1,000,000 sterling and 640,000 bank over-draft, together 15,700,000$ currency or 75 $ per inhabitant.

Corrientes.

Estimates of revenue and expenditure were—

	1884.	1890.
	$ currency.	$ currency.
Revenue	710,000	1,120,000
Expenditure..	750,000	2,080,000

The estimated revenue for 1890 was 1,860,000$, but the amount received was only 1,120,000$. The estimates of revenue were—

	$ currency.
Bank profits	485,000
National subsidy.	175,000
Property tax	405,000
Lands	160,000
Sundries.....	635,000
Total	1,860,000

The bank-profits were of course illusory, but even the other items fell short of estimates by 255,000$, which gives a fair idea of the visionary character of these provincial budgets. If the service of debt had been attended to the expenditure would have been—

	$ currency.
Interest on debt ..	910,000
Police.....	300,000
Schools	280,000
Tribunals.....	120,000
Sundries	470,000
Total.....	2,080,000

The Corrientes loan in London amounts to £1,000,000 sterling, and the coupons are unpaid since Sept. 1890. It is equivalent to $15,100,000 currency, or $52 per inhabitant.

Entre Rios.

Estimates of revenue and expenditure were:—

	1884.	1890.
	$ currency.	$ currency
Revenue.....	1,050,000	2,970,000
Expenditure..	1,050,000	6,710,000

The items of revenue in 1890 (excluding bank-profits) were as follow—

	$ currency.
Property tax	1,140,000
Railways.....	420,000
National subsidy.....	320,000
Licenses and stamps..	570,000
Public lands.....	300,000
Sundries.....	220,000
Total.....	2,970,000

The service of debt would have required £320,000 sterling or $4,720,000 currency, and the expenditure would be as follows :—

	$ currency.
Int. on debt.....	4,720,000
Schools.....	280,000
Police.....	600,600
Tribunals.....	210,000
Sundries	900,000
Total.....	6,710,000

The sum required for service of debt was 60 per cent greater than the revenue of the province. Since then the Government has made a very good business by handing over the State railways in lieu of a part of the debt.

The debt of Entre Rios in Dec. 1891 comprised 7 foreign loans, viz :—

	£ sterling.
Railway loan.....	3 200,000
Loans of 1886-90....	2,800,000
Total	6,000,000

The railways (which figure above as a large source of revenue) did not pay working-expenses. The bondholders consented, on receiving £500,000 of the Morgan Loan scrip, to take over the railways and cancel the above debt of £3,200,000 sterling. The debt of Entre Rios now stands as follows—

	£ stg.	$ currency
Foreign loans.	2,740,000 =	42,000,000
Internal debt..		6,200,000
Total.....		48,200,000

This is about 160$ per inhabitant, and the annual service of the debt would require a sum of 3,000,000$ currency or the total revenue of the province (excluding the familiar "bank-profits").

Summing up the revenue and expenditure of the foregoing 13 provinces we find as follows—

	Revenue	Expenditure
	$ currency	$ currency
Santa Fe..	2,925,000	7,725,000
Cordoba ..	2,006,000	8,160,000
San Luis..	220,000	620,000
Mendoza...	470,000	1,520,000
San Juan..	486,000	910,000
Rioja	432,000	1,380,000
Catamarca	405,000	970,000
Jujuy	126,000	200,000
Salta.....	327,000	1,390,000
Tucuman.	950,000	1,560,000
Santiago..	670,000	1,610,000
Corrientes	1,120.000	2,080,000
Entre Rios	2,970,000	5,000,000
Total....	13,107,000	33,125,000

The above revenue, as we said before, excludes the imaginary item of "bank-profits." On the other hand the expenditure supposes the service of the foreign debt, now suspended. The following table shews the total debt of the provinces (gold being reduced to currency at 200 per cent premium) and the annual cost of service.

	Debt $ currency	Interest $ currency
Santa Fé..	84,000,000	4,700,000
Cordoba ..	103,400,000	6,200,000
San Luis..	4,800,000	290,000
Mendoza...	15,300,000	910,000
San Juan..	7,700,000	410,000
Rioja.....	14,700,000	900,000
Catamarca.	9,100,000	540,000
Jujuy.....	150,000	10,000
Salta.....	16,300,000	970,000
Tucuman..	9,100,000	550,000
Santiago ...	15,700,000	950,000
Corrientes.	15,100,000	910,000
Entre Rios	78,800,000	3,000,000
Total.....	374,150,000	20,340,000

We have seen that the total revenue of the 13 provinces is 13,100,000 dollars, hence it appears that the service of debt would require a sum 55 per cent in excess of the aggregate revenues. Under these circumstances we think it would be an act of temerity on the part of the National Government or Congress to assume the responsibility of the above debts. But if some plan could be adopted, to compel the several provinces to set aside 10 per cent of their revenues to pay to the bondholders this would produce 1,300,000 dollars currency or £88,000 yearly. More than this would be impossible.

ARGENTINE MUNICIPAL LOANS.

It was high time for the bondholders of the Rosario, Santa-Fé, and Córdoba City Loans to bestir themselves, and to endeavour to obtain, by all legitimate means, the rights to which they are justly entitled, but which have been in abeyance for more than eighteen months. At the meeting, held yesterday at Winchester House, a strong committee was appointed "to negotiate with the municipalities, and, if necessary, to take such steps as they may think advisable for enforcing the claims of the bondholders in the Argentine Republic." Matters are, therefore, at length being put in train for impressing on the three municipalities the necessity of a return to the paths of honesty, and of a payment of some sort on their part. The following table shows the loans in question :—

	Date of issue	Amount.
City of Rosario.....	1887	£198,400
Ditto.....	1888	992,000
City of Santa Fé.....	1889	257,900
City of Cordoba.....	1887	198,400
Ditto.....	1889	595,200

These loans, which aggregate nearly £2,250,000 sterling in amount, all carry interest at 6 per cent., and were issued in every case by Messrs. E. Heinemann and Co., of Gresham House. It is because the agents have failed to come to any arrangement with the various city authorities that it is imperative that the bondholders should themselves take active measures for their own protection. What makes the behaviour of the municipalities worse is that, according to the latest advices, they could actually pay the interest on their debts nearly in full if they chose to do so. The special taxes that were hypothecated as security for the loans are bringing in a very fair return, and though, of course, the depreciation of the paper currency weighs heavily on corporations, which collect taxes in paper and have to pay interest in gold, the unpleasant fact remains that, so far, no offer has been made to pay any part of their charges either in paper or gold.

One case, mentioned by Mr. Shaw-Lefevre at the meeting, fairly exemplifies the position of all the loans. The loan of £198,400 obtained by the city of Rosario in June, 1887, bears interest at 6 per cent., with a cumulative sinking fund of 1 per cent. The proceeds were to be applied for certain specified purposes—the extinction of previously existing obligations, the building of schools, and other public improvements. The interest and sinking fund were secured by the taxes and tolls on the markets and slaughter-houses, and, if they were not sufficient, on the general revenues of the city. The amount required for the service of this loan is about £14,000, and it is stated that in 1891 the tolls and taxes of the markets produced $229,000, equivalent, at the present gold premium, to £13,900, or practically sufficient to pay the interest and sinking fund without drawing on the general rates; yet no interest has been paid since January. 1891. With regard to the second, and larger, loan of the city of Rosario the conduct of the authorities is equally bad. This loan of £992,000 was obtained for the purpose of paving the streets, and the municipality was authorised to levy a special paving tax upon all property in the city, which was, with the other rates, hypothecated to the bondholders. It seems that $3,642,000 of the loan still remain in the Provincial Bank of Santa Fé, the balance only having, so far, been expended in paving operations. Although the paving tax is said to have been collected, the proceeds have not been paid over to or retained for the bondholders, but diverted by the municipality to other purposes. Much the same account has to be given of the Santa Fe and Cordoba City Loans, with the difference that, while the latter municipality is believed to be able to pay, the former is not obtaining sufficient from its rates to be able at present to pay the full interest in gold.

That the local authorities have been, and may be still, in difficulties is not denied. Their difficulties, however, are of a temporary nature, and in such growing communities as the three in question they pass away very rapidly. It is well known that the Argeniine laws are excellent, in spite of the corruption of the Legislature and Executive. The courts have recently given evidence of their impartiality by a decision against the Federal Government, and on all sides one hears of how far better the judicial tribunals are than the legislative bodies. Now, it seems that the opinion has been taken of an eminent lawyer, well versed in the law of the Argentine Republic, the gist of which is that it would be quite open to the bondholders to sue the municipalities in the judicial courts, and that there is reason to believe that the courts, would follow the ordinary course recognised by Spanish law, and appoint receivers, to whom the special taxes hypothecated to the bondholders would be paid for the purpose of meeting their claims. A committee of six, with Mr. G. J. Shaw-Lefevre at its head, was duly appointed, and the bondholders were gratified to learn that its services are to be given gratuitously. So soon as sufficient support is accorded to the committee by the deposit of bonds, we may hope tha a firm attempt will be made to teach the defaulting municipalities the error of their ways, and that bondholders will soon be in receipt of interest again.

PROVINCIAL NEWS

The sanguinary affair in Cordoba of which we gave particulars in our last seems to have awakened the good humor of the Governor, as will be seen by the following letter from H.E. to the Chief of Police :—"Mr. Chief of Police : Last night, or rather this morning, you came to inform me of the disturbances and firing which took place at the door of the Legislature. You found me in bed, half asleep. My servant had been imprudent enough to awaken me some time before to tell me that rifles were being fired, as if a circumstance like this were of sufficient importance to deprive me of even one hour's sleep. That is why I merely asked you how many killed there were. I did not tell you then what I tell you now for your guidance, after having satisfied that necessity of sleep which my servant had interrupted."

H. E. continues in this jocular tone, much to the disgust of the friends of the persons injured in the fray. H. E. winds up by stating that "the 'Cordobese are suffering from apoplexy and that an occasional bleeding like this is good." We are afraid H. E. has made a blunder. The spilling of human blood is no joke.

Sanguinary frays are the order of the day. Santa Fe has what the Cordoba governor qualifies as apoplexy, as can be seen by the number of murders and outrages daily reported. On Wednesday in that civilized centre Rosario, two well-known gentlemen, Messrs P. L. Funes and Carlos Paganini, went for each other with loaded revolvers. Whether owing to excitement or want of skill, neither one nor the other was hurt. A large crowd collected round the irate and uninjured combatants, and finally the police sailed in, arresting the principal onlookers and ultimately the real offenders.

There is a row going on in Santiago del Estero, owing to a gentleman protesting in rather vigorous terms against an embargo and stigmatising the authorities as a pack of pilferers. The 'dignidad de hombre' of the authorities was wounded by this insult, and the unlucky and outspoken gentleman is now in quod for 'desacato', a warning and a lesson to all who have anything to do with the Santiago Government.

SUPPLY OF AND DEMAND FOR SILVER.

Silver as a medium of speculation has of late attracted little attention. The announcements in regard to the coming international silver conference have apparently fallen flat so far as either commercial or speculative quotations are concerned. The present steadiness of silver prices might be attributed to the influence of the conference. No later than March last the price of bar silver fell to the lowest quotations on record, the figures for bars in London being 39d. per ounce and in New York 85½c. The recovery from this level since that date has been steady and well-maintained, prices within the past few weeks, particularly since the more definite announcements in regard to the conference were made, having shown little variation from 40¼d. or 88c. per ounce. It would be natural to ascribe the prevalent firmness to the belief that the position of silver would by materially benefited by the prospective action of the civilized governments of the world The impression in trade circles, however, does not coincide with this view. Attention is called to the fact that the improvement in commercial prices has not been attended by any revival of activity in the silver bullion certificates in which speculative transactions have almost entirely been conducted. The trading in that class of securities in the New York Stock Exchange has been and continues to be of the most limited proportions. It is also noticeable that the amount of silver bullion deposited against the issue of certificates is slowly but steadily shrinking. Withdrawals from the stock of the metal are not rapid, but it is evident that the aggregate so held is not replenished as would be the case if an active speculative movement in silver certificates furnished an inducement to holders of bullion to convert it into this form for the convenience of marketing it Another important indication of the absence of any decided speculative movement in silver is furnished by the relative position of the prices for bars in relation to the current rates at which India exchange is quoted in London. During the past few years, in which the silver market has been subjected to such violent fluctuations of a speculative character, this parity has varied often to a market extent. At the present time the relation is preserved with a steadiness which indicates that the market value of silver is determined by the question of supply and demand to a greater extent than that has been for a long time. It was noted some time ago that the position of silver was being determined more and more by purely commercial considerations, and that the extraneous and political influences which caused the remarkable fluctuations of two years ago were losing their force in this connection. The recent action of the markets indicates that this has been fully realized.

In estimating the actual condition of supplies and demand in regard to silver there is an absence of exact data. It would seem, however, that for some little time there has been a slight but perceptible decrease in the amount coming from the west and offered either to the government or in the New York market for export or use in the arts. It would not be safe to ascribe this tendency to the shutting down of mines. That some low-grade mines have suspended operations in consequence of the low figures at which their ore must be sold to smelters is incontestible. Nevertheless the cases in which this is known to have occurred are a small proportion of the general producing capacity of the country. Some of the largest smelters in the country are reported to be working at present on their 'dump' ore, the actual receipts being below their consumptive capacity. This of itself would account for the decreased supply, which in its turn has a decidedly strengthening effect upon a market of remarkable sluggishness and limited demands. *Bradstreet's.*

BUENOS AYRES CHORAL UNION.

Owing, presumably, to the threatening aspect of the weather on Tuesday evening, there was but a moderate attendance at this society's concert. Those, however, who did venture felt themselves well repaid, if the enthusiasm shewn is any gauge.

The success of the evening was undoubtedly the duet, "When the wind blows in from the Sea," sung by Miss S. Lee and Mr. Colquhoun, and which had to be repeated. The pretty song "Dear Heart" and "Once" by Miss M. Lee and Miss Reddall, respectively, were well received and re-demanded. The former was in especially good voice, and the latter, who we think is new to B. Ayres, possesses a full rich voice and good style. Mr. Colquhoun was loudly applauded for his rendering of "Hear the wild winds blow," (Mattei) and in response gave some song of a patriotic nature. The words were not very distinct.

Mr. Comber, who has a very pretty though not a strong voice, sang "Light and Shade" (Barri) and "The Vagabond," other pieces being contributed by Miss Wohlers and Dr. Newland.

Of the heavier choruses "Babylon's Wave" (Gounod) and "Hushed in Death" (Hiles) with somewhat difficult fugue movements, were well rendered. The Sestet "Stay prythee Stay" with its light and tuneful leads for the various parts went well. The pretty though short part-song by Sullivan "Échoes," sung unaccompanied, deserved to have been repeated.

A word of praise is due to Mr. Owen for the excellent work of the choir, which, it is pleasing to see, steadily grows both in numbers and efficiency. The accompanying was shared between Mr. W. Nicholson and Mr. Owen.

RAILWAY ITEMS.

The representative of the Rosario Railway has asked Government to apply to Congress for the requisite authority for the payment of the sums due the Company for special trains during the last revolution. The Company presented a bill for $100,000, of which the Government paid 50% on account. The War-Ministry, moreover, owes the Company $200,000.

The N. R. Board have reported on the guarantee account of the North-West Argentine, $38,565 gold, which Dr. Araoz advises the Government not to pay, as the works of the line have been suspended.

The *Chilian Times* of June 15th says : On the morning of the 30th ult. a furious Andine storm occurred at Rio Blanco and a locomotive, a truck and a coach, which were standing in the station were carried a distance of upwards of twenty metres and blown into the bed of the river. It is proposed at this point to carry a bridge of from 250 to 300 metres in length and 20 in height over the river Mendoza, and it is to be hoped that in its construction the engineers may not lose sight of the occurrence of the 30th ult.

EDITOR'S TABLE.

Hip, hip, hip: Hurrah! The Senate voted the raising of the State of Siege yesterday without a word of debate; so the country is free again: an agreeable change, on which we congratulate our Argentine friends.

We call the attention of our readers to the resumption of our telegraph service from Europe; and they can now again count on having the very latest news from the Old World at breakfast every morning.

The rain yesterday spoiled everything, including everybody's temper and newly-polished boots. It was general, and the reappearance of Jupiter Pluvius, after such a long absence, was hailed in all quarters with unlimited satisfaction. There was a deal of thunder and lightning, and the telegraph wires suffered in many places. Admiral Solier's squadron must have caught it hot and strong at the mouth of the river.

The following are the principal prize numbers in yesterday's Caridad Lottery: 8041 20,000; 3547 1000; 7179, 3691 500; 9507, 1810, 8662 200; 2021, 3566, 5100, 7018, 5170 100; 10799, 9266, 8772, 1469, 1250, 9510, 6368, 3603, 9851 50.

Our esteemed colleague "Argos," of the *Nacion*, has fished rather a queer bit of news out of the latest Chilian statistics. It appears that there are 343,254 married men in that interesting republic, and 344,801 married women, so that there are 1,547 men who have two wives. Happy or unhappy men?

The Tomba Company gave "Ill Nuovo Orfeo All' Inferno" on Wednesday night at the San Martin. There was a splendid house, there hardly being standing room. The performance was very good, and Mr. Tomba is to be congratulated on gorgeous "mise en scene," the scenery and dresses being splendid.

We received a broadside yesterday from all our musical friends for the "lapsus calami" of writing "Il balen" for "Di Provenza" in referring to Señor Laban's first appearance on the lyric stage. The mistake is easily explained: we were not writing with a Ball-pointed pen at the time; a B.-p. would never have made such on atrocious slip.

We have again to appeal to the better feelings of the many constant and casual readers who avail of the free STANDARD pasted up at our street door for their special convenience. Mutilating the sheet by cutting out the advertizements is not only an offence in itself but very unfair play to those who may be seeking situations. Yesterday a case in point occurred: an advertizement that would exactly have suited two respectable men having been cut from the paper; of course the fellow that cut it out had the start of them; but we hope did not get the place. There will be unpleasantness some fine morning at our street door, in which a policeman will figure, if the offence be repeated.

The advices from Rio Grande yesterday reported the latest bloodless Brazilian revolution as over. General Tavares and all his men surrendered.

The Italians at Montevideo are thinking of sailing into the quarrel of their countrymen at Santos with the Brazilians. Of course our Italian friends across the river know their own business best, but they will make the row all the hotter. All Italy is already in a ferment, but it is safe to lay $100 to a hat that the case will be settled without recourse to gunpowder.

Food Reform is the latest fad at home, and nuts and bread for breakfast, lunch, dinner and supper are coming into fashion.

Brougham once facetiously defined a lawyer thus :—"A learned gentleman, who rescues your estate from your enemies, and keeps it himself."

Those "hereditary foes" the Germans and French have arranged their little Exhibition tiff; or rather the former have arranged it themselves by deciding to hold their Show in 1898, leaving the last year of the century to the Gauls.

Governor Pizarro of Cordoba seems to hold the same high opinion of blood and iron as our esteemed subscriber Prince Bismarck. The Governor says that the Cordobese suffer from an excess of blood, and should be allowed to kill each other, now and then. This is an original view of the recent "desgracia" at the door of the Chambers.

There is nothing whatever new in the Independence Day programme for to-morrow: Te-Deum in the Cathedral; Presidential procession of swallow-tailed and white-chokered big-wigs to the church and back; lunch in the Government House; march past of 4000 troops under General Palacios; gala performance in the Opera House for the classes; illuminations and fireworks for the masses; and then all home to bed, to have their eyes sealed up by "Nature's soft nurse."

Our esteemed countryman Mr. James Fitzsimons, Inspector General of Education, has won the suit for slander brought against him by Dr. Orma, ex-Rector of the National College. We offer Mr. Fitzsimons our congratulations.

There was a novel and grand sight at La Plata on Wednesday morning when no fewer than *nine* ocean steamers entered the Basin in line, 220 yards between each. Only two of them had tugs, the captains of the others handling them like row-boats, and not a single mishap occurred.

Advices from Rosario state that the agents of the holders of its municipal loan are still engaged in the interesting experiment of trying to get blood out of a turnip; or in other words getting the cash for the service of the said loan out of the municipality. It would be for easier to reach the North Pole. It appears from the latest home papers that the English holders of the sundry Municipal loans of this country intend "putting the law (Argentine) in motion" to get back their money. This is grand news for the members of the Argentine Bar; but only for them. When our London friends see the bill of costs, they will require some stimulant on the instant.

Man proposes, and—woman wishes he wouldn't be such a a plaguey long time about it.

"Now, Bobby, spell needle." "N-e-i-d-l-e." That's wrong. There's no I in needle." "Then it ain't a good 'un!"

There is no peace for railway men in this grand country. The Tigre station is now found to be rotten from top to bottom, and must be rebuilt. This will be another pull at the attenuated pockets of the shareholders; as a one-horse station will never do for such au ultra-fashionable resort as the Tigre, and money must be spent freely on the new station.

Gas Company managers were in such good spirits yesterday that most people thought there was a "slump" in the price of coal, or that the "ile" wells all over the globe, together with Electric lighting, had gone straight to the three D's. The fact was that, the day being so confoundedly dark, gas was burning in half the offices and shops in town all day long, and the managers rejoiced thereat.

The *M.V.T.*, referring to the coming oily gammon Message from President Herrera, says that H. E's. messages generally remind it of a popular novel and a famous comedy.—'Great Expectations' before they are published and 'Much Ado About Nothing' afterwards.

We beg to thank Mr. R. H. Icely for sending us a copy of his 'Railway Guide and Station Directory' of Argentina It is a book which both railway men and the general public will find decidedly useful.

The beauty and fashion of the city were to be seen on Wednesday night at the Velada Patriotica of the University Union. President Pellegrini and his Ministers of Foreign Affairs and Worship were present.

There is a "funcion de moda" at the Skating-Novedades to-night, and a private ball will be given to-morrow night, to dance honour to Independence.

Hayward's Paste Dip
The best test of a Sheep Dip

PRACTICAL RESULTS OF USING A RELIABLE DIP WHICH CURES THE SCAB AND IMPROVES THE WOOL.

The following testimonial is received from Messrs Ronald & Rogers, the celebrated Brokers for River Plate wools at Liverpool who sold a number of lots of wool from some of the largest Estancieros in the River Plate.

COPY TESTIMONIAL

Telegraphic Address—Ronald, Liverpool, Exchange Chambers, Bixteth Street, Liverpool, 19th Feb. 1892.

Dear Sirs—
Amongst the River Plate Wools which we have sold here this season, our attention has been called to several clips which had been treated with Hayward's "Paste" Sheep Dip, and we have pleasure in testifying to the *freedom from scab, and handsome lustrous appearance of these wools, which we consider materially assisted in their obtaining such very good prices.*

ON 'CHANGE.

Thursday, July 7th.

The dull and dismal weather invaded the hall to-day and spread a gloom of visible darkness, with flickering gaslights and the vapors of damp fog and stuffy cigar smoke. The members shuffled from one corner to another, grumbling at the discomforts of the hall and the lack of illumination. Business dragged and affairs were dull; nine thousand ounces changed hands at the first ring: the price opened at $52.30, rose to 52.40 and closed at 52, say 219½% premium. Sovereigns closed at $16.25, say 222.41% premium, but this rate was nominal owing to the dullness of business in sovereigns. The gold market opened this morning with a firm, rising tendency, but as the day grew the situation weakened and the first ring closed with a heavy closing price. The news of the shipment of gold by the R.M.S. Clyde had little effect upon the market; from some cause or another the market of late attaches but scant importance to the weakness of exchange and the efflux of specie.

One of the most prominent features of the market, and one that escapes the attention of the many whose views appear to be limited to the four walls of the Bolsa building, is the headlong decline in the price of wool, wheat and maize, at the very moment when a slight spurt in gold led all to anticipate not only a rise in the paper prices of produce, but also a revival in business at the Plazas. Strange to say, since the beginning of the week gold has risen and all kinds of produce have dropped like lead in the midst of a general dead-lock in business. 'Pasto fuerte' wools, for instance, which we quoted low at $8½ last week, were sold to-day by Don Carlos Fremery at $5½ per 10 kilos; wool advices from France continue dismal, and for the moment there are no prospects of improvement. Barraqueros calculate that the export of this clip up to date amounts to 350,000 bales. Wheat is falling also. Maize has also dropped, and some parcels were sold this morning at the Central Produce market at $5.35 per 100 kilos.

Patriotic Bonds were firmer to-day and the demand was more active. The rate for cash closed at 70½, and 71 for the end of the month. Internal Bonds were also more active; prices closed at 63.90 for cash and 64.30 for 31st inst. Catalinas were faint, closing at 9.60. National Cedulas A gold rose to 33, a rise of 3 points. Some strong buyer entered the La Plata Cedula market this morning, and his purchases put prices up to 32.30 and 32.40.

Exchange was dull at nominal rates. Discounts continue easy.

The Procurador del Tesoro has reported favorably on Mr. Walker's application for a concession of 32 square leagues to start 5,000 Australian colonists. Mr. Walker had applied for two concessions of 32 leagues each, but the law only grants one concession of that area to one person or company. The Procurador advises the formation of two separate colonization companies to obtain the two concessions required.

The Inspector-General of the Chicago Exhibition Committee, Don Carlos Lix Klett, has gathered in the Plazas over one thousand fine samples of produce, which shows how indefatigable are his efforts to make a great display of Argentine produce. All these samples have been classified by Mr. Lix Klett, to each is attached the name of the donor, the quality of the article, the locality where it came from, etc., etc., including chemical analysis of exceptional samples. Samples of soil from certain quarters, such as from Olavarria, Alfalfa, Trenquelauquen, will also be sent with analysis. Fifteen leading millers of this city and province are preparing stalls for the exhibition. The Exhibition Committee have appointed Mr. Niederlein, the talented naturalist, to make explorations in the Chaco, Corrientes and Misiones, to collect samples of wood and plants. Engineer Nelson goes on a similar mission to Tucuman, Salta and Santiago: it is hoped that all the sugar manufacturers will take part in the exhibition. An effort will also be made to induce the wine growers of the Cuyo provinces to join the movement. The exhibition committee intend holding in this city a preliminary exhibition of all the exhibits in the Pavilion that attracted so much notice at the Paris Exhibition.

There was a rumor in the hall this evening that exchange had suddenly weakened. There was no truth in the report, for rates remained unaltered.

It is whispered that a Bill will be presented in these days to the La Plata Legislature to enable debtors of the Bank to pay off under more advantageous conditions than at present. If this be the case, the Bill must be one that will considerably put down the current prices of the stock.

The Caja de Conversion paid out yesterday two and half millions on account of amortization of Patriotic Bonds delivered by subscribers to the Banco de la Nacion. A balance of 14 million still remains to be paid up to 10th inst. on account of the amortization fixed for the current month.

Thirty-eight thousand bags of maize are reported sold at $5.30 per 100 kilos, to deliver in San Nicolas and San Pedro.

Telegraphic communications were interrupted by the storm to-day. All the lines in the South have suffered and the repairs will require some weeks' labour. The rain appears to have been general in the province.

The steamer Clifton has been despatched to St. Vincent with 35,200 bags of maize.

The Chargeurs Reunis steamer Uruguay arrived to-day at Montevideo.

The gold market ruled very steady at the second ring: eight thousand ounces were sold for to-morrow: the price opened at 52$, fell to 51.70, but closed hard at 51.90, say 218.89% premium. Sovereigns closed at 16.10$, say 219.44 per cent premium. Patriotic bonds were very active and firm: over half a million changed hands, closing rates 71.50 for 31st and 71.20 for to-morrow. Internal bonds rose also, closing at 64.20. La Plata Cedulas were weaker.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

PHOSPHATIC
BAKING POWDER
BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.
What a wonderful result is this!"

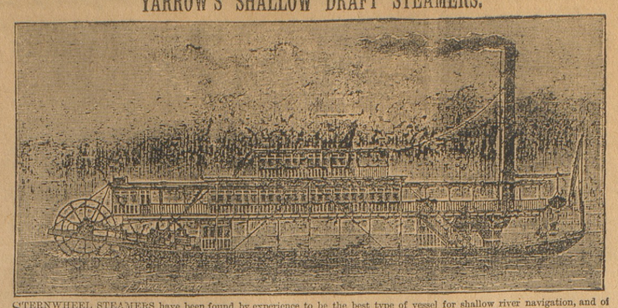
YARROW'S SHALLOW DRAFT STEAMERS.


STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. YARROW have constructed a large number of successful examples for all parts of the world.
Vessels on this system are constructed, when required, to draw as little as 6 inches.
Messrs. YARROW lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.
They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.
For full particulars apply to—
YARROW & CO., Shipbuilders,
POPLAR, LONDON.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

Dr. J. Collis Browne's Chlorodyne—Dr J Collis Browne (late Army Medical Staff) Discovered a Remedy, to denote which he coined the word «Chlorodyne.» Dr Browne is the Sole Inventor, and as the composition of Chlorodyne cannot possibly be discoverrd by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr Browne's Chloredyne must be false.
This caution is necessary, as many persons deceive purchasers by false representations.
Dr. J. Collis Browne's Chlorodyne—Vice Chancellor Sir W PAGE WOOD stated publicly in Court that Dr. J. BROWNE was undoubtedly the INVENTOR of CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to—See «The Times,» July 13, 1864

STEPHENS INKS
IMPORTANT NOTICE
Stephens' Ink
Falsifications of Stephens well-known Blue Black Writing & Copying Fluids are now being sold in this town as the genuine inks. The original bottles which have contained Stephens' Inks are being refilled with the imitation and the trade-mark, labels and seal are very closely copied. The principal difference between the true and the forged label is that the lines and ornamentation in the red ground work of the imitation are blurred and indistinct, instead of being sharp and clean as on Stephens' genuine labels. It is to be noted that the litre and half litre bottles of Stephens' genuine Inks have a patent cork attached consisting of a metarien with teeth into which a cork is fastened. *The fraudulent bottles have no such cork.* The fraudulent ink writes of a greenish blue colour and thickens in the inkstand very rapidly, whereas Stephens' genuine ink writes a strong blue colour and keeps perfectly fluid in the inkstand. Assist in the prevention of this fraud by destroying the bottles which have originally contained Stephen's genuine inks.
Stringent legal proceedings will at once be taken against all dealers selling the fraudulent inks.
